

FRANK ANDREWS – A SELECTED BIBLIOGRAPHY (revised 2nd. July 2015)

Readers of *For the Record* are used to reading discographies and articles about record company history, they may be surprised to see, possibly for the first time, a bibliography.

No one with an interest in records can fail to know of the immense amount of research that has been completed by our own Frank Andrews. His articles in a variety of magazines and journals must run in to hundreds while countless numbers of sleeve notes, books and article acknowledgments bear witness to the massive contribution he has made to providing the basic tools that enable us to have a fuller understanding of our interest.

I have listed below all those major publications with which Frank has been involved over the years, I feel that it will remind people of just how prolific he has been and just how much we all owe to him.
